

Belle Borgeaud ***Avid & FCP Editor***

Profile

Belle is a very talented and popular editor. She started her career at Keo Films and since leaving has cut a variety of ob docs for leading production companies including Raw Television, Plum Pictures and Spun Gold.

Belle has a degree in graphic design and loves animation, which really helps in the edit, giving her a sharp, creative edge.

She loves punchy promo work, as well as getting her teeth into a strong narrative. Being technical and organised, she would be a real bonus to a production.
